

Purple Cushhh CBD Oil Guide

CBD Oil comes from the stalks, leaves, and flowers of the Cannabis Sativa plant in its production. These contain a higher concentration of CBD. CBD contains B-complex vitamins including Vitamin B6, B12, riboflavin, niacin, iron, and thiamine.

FECO (Full Extract Canna Oil) is the highest concentration of essential oil from the Cannabis plants that provides one of the broadest spectrum of cannabinoids available. Full Extract Cannabis Oil gives a heavy dose of cannabinoids to help people cope with their illnesses and even make it possible to break away from opioid addiction.

Hemp Oil comes from the small seeds of the Cannabis Sativa plant in its production. It contains Omega-6 and Omega-3 fatty acids, Gamma-linolenic acid, and other nutritional antioxidants. It is also high in B vitamins and vitamin D. It is rich in unsaturated fatty acids and essential amino acids, providing an excellent source of nutrients.

Purple Cushhh's CBD Oils and blends does not contain Tetrahydrocannabinol (THC).

MCT Oil is a supplement made from a type of fat called Medium-Chain Triglycerides. MCT molecules are smaller than those in most of the fats you eat (long-chain triglycerides [LCT]). This makes them easier to digest. You can absorb MCT in your bloodstream quickly. MCT oil is usually made from coconut or palm kernel oil as both contains MCT.
