**Neutralizes Stomach Acid. Fights Heartburn. Neutralizes Symptoms of bloating and gas. Eases Gastritis. Boosts Immune System.**

## Ingredients

**Basil, Cinnamon, Magnesium, Cumin, Aloe, Ginger, and Triphala.**

**Basil** has soothing properties that provide instant relief from the burning sensation and formation of acid in the stomach.

**Cinnamon** is rich in antioxidants, which help protect the body against oxidative damage caused by free radicals. Additionally, cinnamon has been studied for its potential anti-inflammatory and antimicrobial properties. Some research suggests that cinnamon may also help regulate blood sugar levels and improve insulin sensitivity. One potential way **Cinnamon** could benefit acid reflux is through its antimicrobial properties. Acid reflux often involves an imbalance of gut bacteria, which can contribute to symptoms. **Cinnamon** may help by inhibiting the growth of harmful bacteria in the digestive system and promoting a healthier gut environment.

**Magnesium** may help reduce acid reflux symptoms by neutralizing stomach acid.

**Cumin** is gastro-protective. They effectively reduce and prevent acidity and its symptoms like heartburn, pain, nausea, bloating, constipation, etc.

**Aloe** contains several compounds that may contribute to its potential benefits for acid reflux. It may have anti-inflammatory properties and help soothe irritated tissues in the esophagus and stomach. Additionally, **Aloe** may promote healing of the gastrointestinal tract lining.

**Ginger** has been used to treat digestive issues for centuries in civilizations all over the world. **Ginger** has anti-inflammatory properties, making it a natural remedy for gastrointestinal disorders. The antioxidants present in ginger help prevent chronic diseases such as heart disease, high blood pressure and promote healthy aging. **Ginger** has a calming effect on the abdomen and can assist in reducing stomach acid production.

**Triphala** acts as an herbal laxative that helps in attaining quick relief from digestive issues like constipation, acidity, flatulence, bloating, etc.
